

**Grounds Committee Report
Annual Owners Meeting
November 3, 2018**

- Community Work Days for 2019 will take place on May 4 and May 5.
 - There is a second day because replacing dock deck boards precludes cleaning of dock boxes and light towers at the same time.
 - May 4 would include pruning, cleaning signs and planting additional ground cover.
 - The surviving two bushes in back of Bldg 4 deteriorate more every year and should be replaced.
- There will be a “walk around” in early Spring to determine the scope of CWD. Date to be determined.
- This is a “volunteer army” and everyone is welcome. Thanks in advance for helping to keep Mariners Point in pristine condition.
